CAMPUS UPDATES AND OPPORTUNITIES

Announcing a new Emotional Wellness Program for Students

The UCC is offering the 12-week Emotional Wellness Program developed by a new company, Inn insightful, to students this Spring. This program will help you learn skills to better manage emotions and improve your wellbeing and includes a weekly virtual psychoeducational group, with other ND students, and mental health coaching.

[Sign-up to participate](#) using your ND email and the coupon code “FreeNotreDame”. Inn insightful will form small support groups based on the availability you provide at registration. All groups will begin no later than the week of February 14th and run for 12 weeks, concluding by the end of the semester. More information is available on the [UCC website](#). Deadline is February 4th to participate at no cost. Space is limited.

News from the Center for the Study of Languages and Cultures

February is all about Foreign Languages Week. If you missed previous communication or want to know more about the 40+ events happening on February 21-25, **[please click here](#)** and mark your calendars. You don't want to miss out on all the fun and engaging events: movies, dance classes, international Trivia, workshops, student-led panels, food and so much more!

JANUARY 2022

Newly Launched: National Community Coalition

For institutions, professionals and students in the last years of their professional programs.

Pre-Health Dreamers (PHD) promotes a culture of inclusion in higher education and healthcare. We work with institutions to establish equitable and holistic resources and processes that support the success of undocumented communities.

We recognize the efforts taking place at the state and national level to develop support that welcomes undocumented individuals into these much-needed spaces. To support institutions in these efforts Pre-Health Dreamers has launched the National Community Coalition (NCC).

The NCC seeks to address barriers and empower institutions new to this cause. Historically, the lack of resources and holistic support in higher education and health care institutions has had a significant effect on the education and health of undocumented students and patients.

Through this coalition, we will create champion sites where undocumented individuals will receive the support they need in safe and welcoming spaces through site-specific training, goal setting, and enrichment assessments.

We want to enrich your services and support for the communities you serve. We will provide training that elevates cultural and structural sensitivity and innovative long-term solutions.
